Bosma Enterprises[®], creating opportunities for individuals who are blind or visually impaired.

Your purchases provide employment for more than 100 people who are blind.

Latex, powder-free surgical glove with a textured finish for exceptional instrument handling and grip

This standard thickness latex glove features a unique textured finish designed to provide greater grip. In addition, it offers excellent comfort and low allergen levels to help reduce the risk of latex sensitization in healthcare workers and patients.

KEY FEATURES & BENEFITS

- Textured finish ensures exceptional grip under dry and damp conditions and makes this glove ideal to be used as an outer glove when double gloving
- Ideal thickness to optimize tactile sensitivity and protection
- The DERMASHIELD™ Technology internal coating facilitates dry and damp donning as well as intra-operative changes

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

RECOMMENDED FOR

- Damp donning
- Enhanced grip in wet environments
- Extra comfort during long, sustained procedures
- Use as an outer glove when double gloving

FEATURED TECHNOLOGIES

SUREFIT™
Cuff Roll-down Technology

DERMASHIELD™
Polymer Coating Technology
