**Great for pain relief after surgery and
beneficial during rehabilitation**

BOSMA
Enterprises®

Quality, Customer Focused, Mission Driven

Bosma Enterprises* offers FirstICE cryotherapy wraps to aid in pain relief following a myriad surgeries from ankles to shoulders. FirstICE lasts four times longer than traditional gel products, up to four hours. This also reduces the cost and inconvenience of buying and storing ice.

These simple to use products allow for fewer steps for nurses providing greater efficiency and better patient care. Because of the FirstICE wrap's easy use, they allow the patient to apply the wrap and de-sensitize joints before rehab.

FirstICE cryotherapy wraps allow patients to move freely without the need for cumbersome hoses or coolers, and also eliminates the complicated process of recharging a cooler as in traditional cryotherapy treatment.
