

PROTECTION

YOU CAN COUNT ON.

VersaShield™ Nitrile Exam Gloves

Dependable barrier protection against chemotherapy drugs

FEEL CONFIDENT WHEN YOU NEED IT MOST.

When your job exposes you to potentially harmful bacteria, blood-borne pathogens and fluids, you need a glove you can trust. VersaShield, a thicker, quality nitrile glove, resists punctures and tears to provide you outstanding barrier protection while featuring textured fingertips for a more confident grip.

- » Thicker material for greater protection
- » Chemo-tested to meet the standard ASTM D6978-05 for providing protection against select chemotherapy drugs*
- » Fully textured (featured on Standard Cuff) or fingertip textured (included on Extended Cuff) for advanced grip
- » Extended cuff available for extra protection between your cuff and sleeve

Standard Cuff Information
