OPPORTUNITY FLEX™
 NITRILE EXAM GLOVES
 with Compression Fit Technology

Opportunity Flex nitrile gloves from Bosma Enterprises are **manufactured in the USA** with TAA compliant foreign NBR and designed for medical professionals that wear gloves all day with frequent changes. Opportunity Flex gloves offer the perfect blend of softness, strength, high tactile sensitivity, and easy donning, while providing protection from **fentanyl** and chemotherapy drugs. These gloves include **Compression Fit Technology**, a patented manufacturing technology that produces compression in fingertips for improved comfort, enhanced dexterity, and greater tactile sensitivity, without compromising durability or protection.
