## Latex, powder-free surgical glove with exceptional dexterity and tactile sensitivity for surgical finesse

Ansell's unique formers and this glove's ultra-thin formulation provides extra sensitivity making it ideal for delicate procedures such as ophthalmic, micro and cardiovascular. This glove's smooth external finish allows for comfortable double gloving and its brown color helps to reduce glare from surgical lights.

### KEY FEATURES & BENEFITS

- 20% thinner on average than Ansell's standard latex powder-free surgical gloves with soft latex formulation for unsurpassed dexterity and tactile sensitivity
- Its brown color helps reduce glare of surgical lights and makes it suitable to be used as an underglove
- The DERMASHIELD™ Technology internal coating facilitates dry or damp donning and intra-operative changes

*CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.*

### RECOMMENDED FOR

- All surgeries, especially delicate procedures in ophthalmology, micro, and cardiovascular
- Damp donning
- Enhanced tactile sensitivity & dexterity, especially for delicate procedures
- Prevention of eye fatigue

### FEATURED TECHNOLOGIES

**SUREFIT™**  
Cuff Roll-down Technology

**DERMASHIELD™**  
Polymer Coating Technology
