## GAMMEX® Non-Latex PI Underglove

SURGICAL GLOVES

# Polyisoprene, DPG-Free surgical underglove with a high-level of tactile sensitivity

The thin synthetic formulation makes this glove ideal for surgical procedures requiring heightened tactile sensitivity and dexterity (e.g. ophthalmic, micro, and cardiovascular surgery). Green in color, this surgical underglove alerts the wearer to a glove breach when worn under a lighter colored glove.

#### **KEY FEATURES & BENEFITS**

- Thin underglove offering optimal comfort when double gloving
- Green color for easy glove breach identification
- Latex-like comfort from a non-latex glove
- Non-latex, diphenylguanidine-free (DPG-Free) and cetylpyridinium chloride-free (CPC-Free) to eliminate the risk of Type I latex allergy and minimize chemical Type IV allergies and skin sensitivities
- Smooth with micro-textured finish offers adequate grip, allowing the glove to also be used in a single glove environment

#### RECOMMENDED FOR

- Damp donning
- Easy identification of a glove breach
- Protection from latex Type I allergy in HCW's or patients
- Use as an underglove when double gloving

#### FEATURED TECHNOLOGIES

SUREFIT™ Cuff Roll-down Technology DERMASHIELD™ Polymer Coating Technology

PEARL™ Protein Leaching Technology

**ART**<sup>™</sup> Advanced Rheology Technology For more information, visit bosma.org or call 800-362-5463.

Bosma Enterprises®, creating opportunities for individuals who are blind or visually impaired.
