

ENCORE® Latex Ortho

S U R G I C A L G L O V E S

Latex surgical glove with an extra-thick glove formulation to withstand the rigors of surgery, especially where power tools and bone fragments are present

Offering on average 50% extra thickness combined with its heavy-textured finish for superior grip when handling instruments, this powder-free latex surgical glove is ideal for high risk procedures in orthopaedics, trauma, and cardiac.

KEY FEATURES & BENEFITS

- 50% thicker on average than Ansell's standard powder-free latex surgical gloves providing outstanding protection
- Heavy-textured finish for superior grip for dry and damp applications
- The DERMASHIELD™ Technology internal coating facilitates dry and damp donning as well as intra-operative changes

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

RECOMMENDED FOR

- All surgeries, especially high risk procedures in orthopedics, trauma and cardiac
- Damp donning
- Enhanced grip in wet environments

FEATURED TECHNOLOGIES

SUREFIT™
Cuff Roll-down Technology

DERMASHIELD™
Polymer Coating Technology
